

TUOLUMNE COUNTY  
RESOURCE CONSERVATION DISTRICT

77 N. Washington St. Sonora Ca. 95370 (209)984-0500

## [Rainwater Catchment Rebate](#)

Tuolumne County Resource Conservation District is offering a rebate for installed rainwater catchment systems. One inch of rain on 1,000 square feet of roof can generate up to 600 gallons of water. Encouraging responsible rainwater collection is conducive to Tuolumne County RCD's core goal of enabling water savings and promoting watershed health throughout the region.

## [Rebate Information](#)

To qualify, homeowners must submit the following

to [george@tcrd.org](mailto:george@tcrd.org).

- Pictures of their installed rainwater catchment system
- All available receipts pertaining to the project
- A short written description of their rainwater catchment system including, system capacity, materials used, and time spent to complete the project.

Systems with a capacity greater than 165 gallons will be rebated \$0.30 per gallon. Systems with a capacity of 165 gallons or less, using rain barrels, will be rebated \$1.00 per gallon. Rebates will be calculated based on system storage capacity according to submitted receipts.

Rebate applied to receipts dated as of January 17 **2014**. All rainwater catchment systems must comply with state and local guidelines in order to qualify.
