

Tuolumne County Resource Conservation District: Forestry Position Announcement

Position Description:

Forester to provide quality technical assistance and conservation planning on private forests to address forest health issues related to drought and insect tree mortality. Registered Professional Forester preferred.

Tasks Include:

1. Landowner and public outreach, education, and training.
2. Provide forest management assistance for landowners and partners that will address:
 - forest management plan preparation
 - forest insect tree mortality reduction
 - adverse impacts from catastrophic fires;
 - forest stand improvement that will promote soil health, wildlife and water storage while addressing fire hazard;
 - advance fuel reduction by supporting biomass utilization for energy and for forest quality and resiliency;
 - invasive weed, animal, insect and disease control;
 - reforestation support needs;
 - permitting requirements.
3. Coordination and development of EQIP agreements (including administrative requirements), environmental support assistance (including environmental and cultural reviews) and implementation inspections.
4. Provide Geographic Information Systems resources to support forest insect tree mortality assessments, prioritizations, and accomplishment tracking.

Please submit qualifications to TCRCD District Manager Lindsay Mattos at lindsay@tcrd.org by 5pm on June 15th, 2016.

For questions or additional information (209) 984-0500 or lindsay@tcrd.org.
